FIRE PUMP
Test Meter

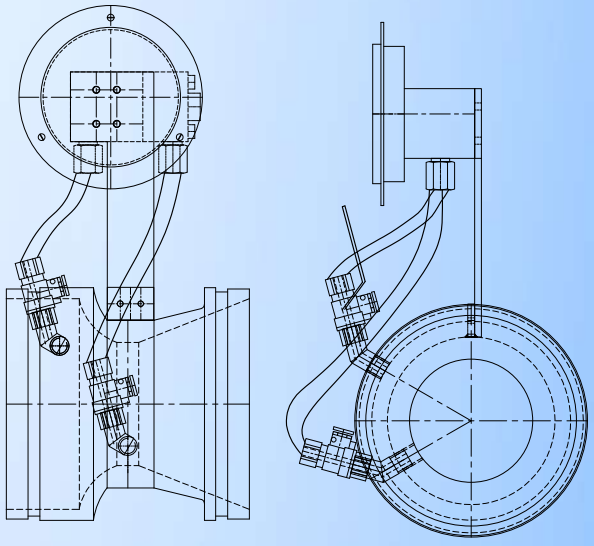

www.iotaflow.com

Product Description

The Fire Pump Test Meters are available in Grooved, ANSI 150, ANSI 300, Butt Weld connections

Material Specifications

Materials	Carbon Steel
Valves	1/4"Brass Ball Valve
Flange Options	ANSI 150B16.5
	ANSI 300B16.5
ID Tag	Poly Carbonate
Approval	UL Certified

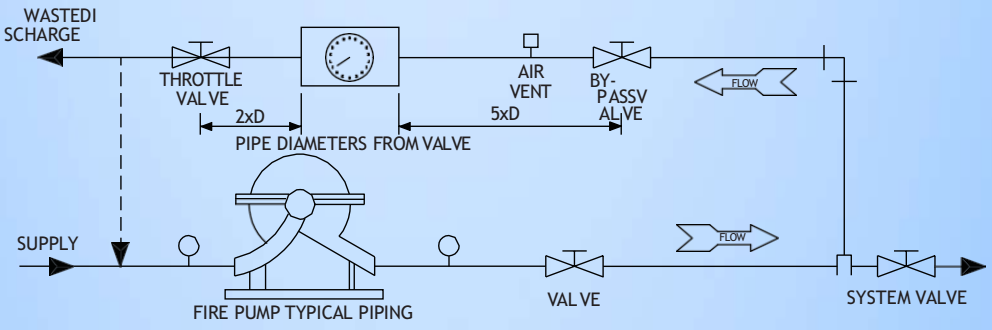

Meter Data

Construction	Body Aluminum/SS 304/SS 316
Operation	Diaphragm (Buna Convoluted)
Accuracy	+2% Full Scale
Temperature	80°C (180°F)
Max. Working Pressure	34.5 bar (500 psi) Butt weld, grooved & ANSI 300 19bar (275psi) ANSI 150
Approx. Weight	1.7kg (3.75 lbs)
Dial	4" Standard Dial 6" Available Dial

Operating Instructions

1. Close system valve
2. Open system by-pass valve and throttle valve
3. Pure meter located on meter as follows:
   - Open shut-off valves and vent valves.
   - When as teady stream of water is passing through each plastic hose, the meter is purged of air.
   - Close ventvalve after purging.
4. Refer to pump GPM/LPM requirement and adjust throttle valve for this requirement.
5. After test open system valve and close system by-passand throttle valves.
6. After test open system valve and close system by-pass and throttle valves.

DN Size vs. Flow Rate

Size in DN	DN100	DN150	DN150	DN150	DN150	DN200	DN200	DN200	DN200	DN200	DN250
Flow Rate (m3/hour)	60.0	159.0	171.0	190.0	273.0	273.0	340.0	410.0	748.4	900.0	495.0

Beyond the Best: Explore More

WATER FLOW METER

Ideal for measuring liquid flow with high accuracy and minimal pressure drop. The perfect choice for a wide range of industrial applications

POSITIVE DISPLACEMENT OIL METERS

Highly accurate for measuring viscous liquids. Perfect for industries like oil, chemical, and food processing where precise volume measurements are essential.

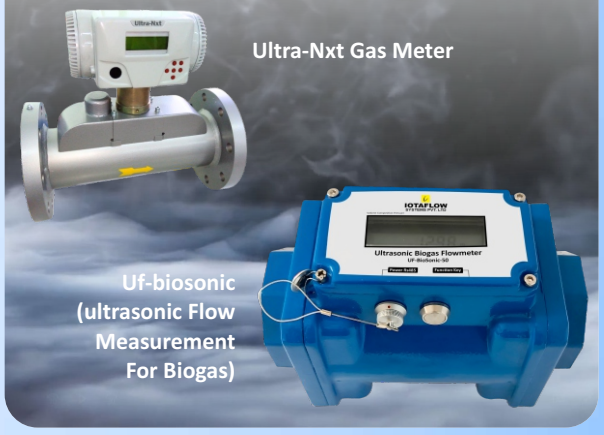

AIR FLOW METERS

Designed to monitor and control air flow in HVAC systems, compressed air systems, and more. Ensures efficiency and accurate flow measurement in air handling processes.

GAS METERS

These meters ensure precise measurement of natural gas, biogas, and other gases, enhancing safety and operational efficiency.
